PUBLIC OUTREACH CAMPAIGN OFFERS INFORMATION DISCLOSURE ON AIRPORT TERMINAL RECONSTRUCTION PROJECT

ABVO-SXM UNION, WICSU PSU UNION AND TOTAL CLEANING COMPANY UPDATED.

The Airport is prepared to embark on a 107-million-dollar renovation development despite setbacks due to the COVID-19 global pandemic. The trailblazers of the Project Management Unit (PMU) of the Princess Juliana International Airport Operating Company N.V. (PJIAE) proclaimed during a virtual Public Outreach Campaign with the media, that the preliminary works for the Airport Terminal Reconstruction Project is planned to kick off with the start of the Phase 2 – Mold Remediation, Surface Decontamination, Dismantling and Removal process in September 2020. Additionally, the bids submittal was published by the aviation company for the Waste Management Disposal contract with an intent to commence works late September, following the official award of contract.

The development materialized given the desolation of the Terminal Building by the untimely hurricanes Irma, Maria and Jose in 2017. A series of assemblies were hosted since October 2019 during the ongoing Public Outreach Campaign by the Corporate Communication Department with

CHECK IN AREA

Artist rendering of the Airport Terminal Building Reconstruction project

the intent to offer information disclosure and attain feedback from stakeholders about the Airport Terminal Reconstruction Project. The Public Outreach Campaign is interrelated with the approved Stakeholder's Engagement Plan (SEP), to maximize and manage the awareness of the project.

The Public Outreach Campaign encompassed both internal and external stakeholders like the Simpsonbay Community Association, Beacon Hill Community Council, the Tourism Stakeholders Committee, Air Service Development Committee (ASDC), Concessionaires, Airlines and Handlers, and Airport staff. Furthermore, the Management and staff of the Total Cleaning Company, WICSU-PSU union and ABVO-SXM union were all addressed by the Project Director of the Project Management Unit, Mirto Brell during meetings which reconvened in July 2020. Recipients were

also able to view a preview of the project through an audiovisual, granting access to a virtual tour of the project, which announced the trajectory of the

complete timeline and associated events.

“The SXM Airport will be one of the largest and most cutting-edge terminals in the region, reintroducing a new Executive lounge, state of the art baggage systems, hurricane proof doors, installation of additional escalators, enhanced public amenities and new technologies to improve security screening.

We are also happy to announce that additional features will also include the Hold baggage screening areas, Check-in area, Departure hall area with Passenger Boarding Bridges (PBB), car rental relocation area, airlines and executive offices and mechanical rooms," disclosed the PMU Project Director during the Public Outreach Campaign with the media.

"The process of the bid submittal for the Mold Remediation project, included a total of twenty-one companies that forwarded an Expression of Interest (EOI) towards the project. All parties joined the first virtual tour to gain more information on the project in August 2020. Six (6) contractors also expressed interest for the vacant Supervising Engineer position," Breell added.

When the media queried about the start and completion date of the project, the PMU Director reaffirmed that the contractor's mobilization begins in September 2020 with both the Mold

Remediation and the Waste Management projects, which is scheduled to be accomplished by January 2021. Moreover, the start of the reconstruction will officially begin in April 2021, while the undated completion target date is projected for February 2023.

"We have the funding back in place, and now we are finalizing the bidding documents to go out in September 2020, for the bids to be completed and the work to proceed. Our current focus is to get the reconstruction completed and the Terminal Building back to pre-Irma conditions once

again. As there is work shortage due to the COVID-19, we hope that this works in our favor allowing more contractors to be readily available for the renovation project."

AIR TRANSAT ANNOUNCES NEW FLIGHTS TO THE CARIBBEAN STARTING NOVEMBER 1ST

CANADIAN TRAVELERS ARE PACKING THEIR BAGS FOR SUN DESTINATIONS

Transat A.T. Inc. is delighted to present the sun destinations it will offer travelers as of November 1, 2020. To help travelers plan their getaways with peace of mind, Transat is presenting even more flexible options to book, change or cancel a trip, in addition to ensuring a safe experience with its Traveller Care program. "Even though the entire tourism industry has been disrupted by the COVID-19 pandemic, the desire to go abroad for a change of scenery and for new discoveries is still very much alive in travelers," says Annick Guérard, Chief Operating Officer of Transat. "That is why we are delighted to present them with our enhanced offer. Now, more than ever, this program of more than 40 destinations allows us to redesign our

future one step at a time and to renew our mission, which is to brighten every day of our passengers."

From Montreal: Air Transat will operate direct flights to Cuba (Cayo Coco, Cayo Largo, Havana, Holguin, Santa Clara, Varadero), Guadeloupe (Pointe-à-Pitre), Haiti (Port-au-Prince), Jamaica (Montego Bay), Mexico (Acapulco, Cancun, Puerto Vallarta), Martinique (Fort-de-France), Puerto Rico (San Juan), Dominican Republic (La Romana, Puerto Plata, Punta Cana, Samana, Santo Domingo) and St. Maarten (Philipsburg).

From Toronto: Air Transat will operate direct

flights to Cuba (Cayo Coco, Cayo Largo, Holguin, Santa Clara, Varadero), Jamaica (Montego Bay), Mexico (Cancun, Puerto Vallarta), Dominican Republic (La Romana, Puerto Plata, Punta Cana, Samana) and St. Maarten (Philipsburg).

Greener flights:

Air Transat continues the transformation of its fleet and strengthens its commitment to reducing its environmental footprint by integrating two new Airbus A321neoLRs, the greenest in their class. It plans to add three more by next spring, bringing the total number of this generation of aircraft in its fleet to nine.

NINE NEW SECURITY GUARDS APPOINTED AT SXMAIRPORT

With the distinct aim to adhere to and demonstrate the company's mission towards safety and securing the aerodrome, a supplementary nine (9) security guards were appointed at the Princess Juliana International Airport Operating Company N.V. (PJIAE).

During the certification ceremony at Pineapple Pete's restaurant on Monday September 7, 2020, the Chief Operations Officer, COO, Michel Hyman, Director of the Operations Division, Lloyd Hinds and Head of Security Guards, Elsidro St. Jago

handed over the official certificates, finalizing the officiation process. While the trial period for some of the former cadets began in January 2020, others came onboard in March 2020.

Amongst the vigorous training, the newly installed security guards engaged in training on the Standard Operations Procedures (SOP),

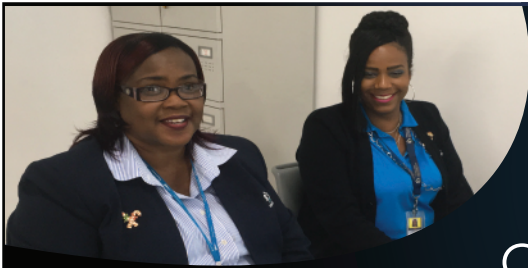

New Security Guards during the certification ceremony.

Security Fan List and Ever Bridge Procedures, Fire Alarm Detection Procedures, Porters Procedure, Cargo Facility Controls and Security Procedures, AVSEC STP-123: Basic Training and much more. The guards will be operational throughout the Terminal Building of the SXM Airport.
