PRINCESS JULIANA INTERNATIONAL AIRPORT CELEBRATES SUCCESSFUL DEBT REFINANCING TRANSACTION

Princess Juliana International Airport (PJIAE) celebrated the completion of the successful refinancing of its 2012 loan, with a new and more favorable loan in the amount of USD 90 million. It is an important milestone for the airport and in line with PJIAE's strategy to rebuild the airport for the future of St. Maarten. A celebratory reception was held at the Mimosa Sky lounge on Rhine Road, whereby many stakeholders of the airport were in attendance.

Ben van der Klift, Chief Financial Officer of PJIAE N.V.: 'This is an important step forward and another vote of confidence in PJIAE N.V. and it also underscores our transformation into an airport with strong ambitions for the future. With the announcement of this new loan facility combined with a recovering market performance through Q1 of 2022, we see progress. PJIAE has positioned itself positively in the market, while enhancing its financial abilities. This will allow us to execute our current rebuilding project and

build on new facilities such as a new fuel farm, catering service and much more, in the near future.

We must remember we are not out of the woods yet. Hurricane Irma and COVID-19 has had a deep impact on the performance and results of our airport in the last five years and we are still on the road of recovery in the coming years'.

Silveria Jacobs, Honorable Prime Minister of St Maarten: 'I'm happy to see all the developments at the airport. PJIAE plays an important role in the development of St. Maarten and our economy. By building, extending, and improving the facilities on the airport we will be able to welcome more passengers in the years to come'.

With large loans it is common to use multiple banks, financial institutions, or lenders, these are brought together by an arranger who organizes the loan package. PJIAE N.V. was able to find such a loan package within the former Netherlands Antilles and is

extremely excited to report that most of the funds (46%) came from St. Maarten institutions, 44% from Curacao based institutions and 10% from Aruba based institutions. An official signing was done on April 4, 2022, whereby AIB Bank N.V. was the arranger of the loan and the RBC Trust (Trinidad and Tobago) Limited, served as the Facility and Security Agent.

The refinancing of the loan facility would not have been accomplished without the honorable Prime Minis-

ter, Ms. Silveria Jacobs, Minister of Finance, Mr. Ardwell Irion and the Minister of Tourism, Economic Affairs, Transport and Telecommunication (TEATT), Mr. Roger Law-

rence of the Government of St. Maarten. The Management Board of PJIAE N.V. extends gratitude for their relentless support during the entire refinancing process.

SAFETY IS OUR PRIORITY AT PJIAE

In November 2021, the Quality Assurance Department (QAD) of the Princess Juliana International Airport (PJIA) held its first "Safety Mascot" competition. The competition served as a part of the ongoing safety campaign which allowed the airport community to design a safety mascot for the organization.

The winning design came from Mr. Dylan Telemaque of the Rescue and Firefighting Department (R&FF). According to the QAD Officer, Mrs. Stefania Gumbs – Kong, the winning selection will be used in all future safety campaigns and promotional materials.

MR. TONY FABRE CELEBRATED HIS 30 YEAR WORK ANNIVERSARY WITH ARRINDELL AVIATION BY SIGNATURE N.V.

On May 20, 2022, Mr. Tony Fabre of Arrindell Aviation by Signature N.V. celebrated his 30 year work anniversary. Mr. Tony Fabre started in 1992 with Arrindell Aviation Services, where former owner Mr. Johannes Frank Arrindell hired Fabre as a Cargo Warehouse Assistant. Mr. Steve Kong was Tony's Manager at time and worked with Mr. Austin Arrindell in the Cargo office of Arrindell Aviation Services at Princess Juliana International Airport.

Matumi Shigemoto, AAS CEO: "On November 11, 2011, Signature Flight Support acquired Arrindell

Aviation Services and Tony continued on with the company as a General Assistant as we no longer operated a cargo division. Tony continues to work not missing a day of

work unless being absolutely unfit for work. Tony is also always on time to work, 2 qualities that are somewhat difficult to find these days."
