

Princess Juliana
International Airport

We are hiring

Join our team!

IT Infrastructure and Applications Specialist

Princess Juliana International Airport (PJIAE N.V) is recruiting a dynamic and **experienced IT Infrastructure and Applications Specialist** to join our innovative IT department. As a pivotal member of the team, you will be responsible for managing the organization's IT infrastructure, application portfolio, Intranet, and integration of various systems through APIs. This role requires expertise in network management, particularly with Cisco switches, along with proficiency in coding and scripting to automate processes and enhance system functionality.

RESPONSIBILITIES

- Oversee and ensure the optimal performance, reliability, and security of the IT infrastructure, with a focus on Cisco switch management. Maintain and enhance the Intranet platform, ensuring operational continuity and the implementation of new functionalities.
- Develop and implement scripts to automate IT processes, thereby increasing efficiency and accuracy. Design and maintain web portals using C#, VB.net, HTML, MySQL/MSSQL, and JavaScript, to support user interaction and service delivery. Integrate APIs from different systems to capture data, facilitating seamless data flow and interoperability between platforms.
- Assist in the development and structuring of the ERP database, ensuring a robust and scalable system architecture.
- Manage the suite of business applications, ensuring they are up-to-date, meet business needs, and are fully functional.
- Contribute to IT strategic planning, governance, and the execution of IT initiatives, aligning with organizational strategic objectives. Participate in enterprise architecture development and project portfolio management.
- Maintain compliance with data governance standards and regulatory requirements.
- Offer technical expertise and support for network, application, Intranet, and API integration projects and issues.

REQUIREMENTS

- Bachelor's or Master's degree in Information Technology, Computer Science, or a related field.
- A minimum of 5 years of experience in a role that combines IT operations, network management, and system development.
- Proven experience in managing and configuring network infrastructure, with a specialization in Cisco and MikroTik switches.
- Proficiency in coding and scripting with C#, VB.net, HTML, MySQL/MSSQL, and JavaScript.
- Experience with API integration and management across diverse systems.
- Knowledgeable in ERP database architecture and system development.
- Solid understanding of IT infrastructure, strategic IT planning, and application management.
- Strong analytical and problem-solving skills, capable of managing complex IT tasks.
- Excellent communication skills, adept at documenting and explaining technical details.
- Relevant certifications such as CCNA, CCNP, MTCNA, MTCRE, or Microsoft Certified: Azure Developer Associate are highly valued.

The IT Infrastructure and Applications Specialist will play a crucial role in advancing our IT infrastructure and application management, contributing to the seamless operation of Princess Juliana International Airport. If you are a proactive, technically skilled professional with a strong background in network management, coding, and system architecture, we invite you to apply for this comprehensive role. We look forward to welcoming the newest member to our innovative IT team at PJIAE.

HOW TO APPLY?

Interested persons can email their resume and motivation letter to career@sxmairport.com. Please include "IT Infrastructure and Applications Specialist" in the subject line. Application deadline **February 26, 2023**.
